August 6, 2014

Mr. Acorn,

I wanted to take this time to thank you and your crew for the outstanding job you did on removing the mold contaminated areas in my brother's house. Not being a resident of Missouri I was in the dark about finding a company I could trust to do a complete and thorough job.

After speaking with your Project Manager, Justin Dawson I knew I had found the right company. Justin was very professional and explained every step of the process to mediate the mold. He went into depth explaining how the mold gets started and how it grows. I never realized the effects it could have on a person's health. I now believe this was part of my brother's respiratory problems.

Being from Florida I knew I would have a problem locating any one, or company to reconstruct/restore the kitchen and bathroom after all the contaminated wood had been removed.

There again, your company stepped up to the plate and made all the repairs to make my brother's house livable again. There are no words that I can use to express my appreciation to you and your great crew. Working with you and your men I feel I have not just repaired my brother's home but have made some great friends.

Thank you again, and all the best to you and your men.

Sincerely,

H. Jesse Smith
